Subject: Letter Work Plan, Site 4 Soil Delineation and Bench-Scale Study
NWIRP Bethpage, New York

Dear Mr. Scharf:

On behalf of the Navy, please find enclosed two copies of the subject Plan. The purpose of this plan is to further delineate the vertical extent of petroleum-contaminated soils at Site 4 and to conduct bench-scale testing to evaluate the feasibility of recovering weathered No. 6 Fuel Oil from Site soils. The field work is tentatively scheduled to be conducted from late October through mid November 2010.

If you have any questions please contact Ms. Lora Fly, NAVFAC Mid-LANT, at (757) 341-2012.

Sincerely,

David D. Brayack, P.E.
Project Manager
